

NPCI/2024-25/RuPay/020

January 28, 2025

To,

All Members participating in RuPay (Domestic) Scheme

Subject: Date enrichment in BIN management files (912NPC199900012502200, 922NPC199900012502200) – withdrawal of the files (812NPC199900012502200, 822NPC199900012502200)

RuPay system generates domestic BIN Management files (81,82,91,92) post each settlement cycle in BCS portal. In order to facilitate better reconciliation for the member banks a few changes were implemented in BIN Management files 91 & 92. The details of additional parameters included in BIN Management files 91 & 92 are detailed in Annexure I. The modified format of 91 & 92 is being already consumed by the member banks.

With the above changes the files formats 81 & 82 have become redundant as all the required information is provided in 91 & 92. In order to reduce the load on the system it has been decided to discontinue the formats 81 & 82 with effect from February 20, 2025.

Kindly refer the RuPay RGCS Technical Specification version v1.38 or above, for further information

Member banks are advised to take note of the above and disseminate the information contained herein to all concerned stakeholders. In case of any further clarification please reach out to your respective customer success relationship manager.

With warm regards
